PROFILE

Web Developer focused on building modern, functional, and interactive digital experiences across WordPress, React, API integrations, GHL, and automation. Currently at Mitash Digital, working on real-world projects involving website development, integrations, automation workflows, and custom digital solutions — turning complex requirements into clean, practical, user-friendly results.

EXPERIENCE

WEB DEVELOPER

20 AUGUST 2025 — PRESENT

Mitash Digital

- Develop and maintain WordPress, PHP, and React-based websites for client and internal projects.
- Build and manage GHL (GoHighLevel) integrations, CRM automation, and workflow automation.
- Design and implement REST API integrations and webhook-driven data pipelines.
- Build web scraping and data extraction tools for structured data processing.
- Debug, troubleshoot, and maintain custom digital solutions across multiple concurrent projects.

EDUCATION
